

Sonic-Laser Scale SP • Hands Free Fish Weight and Length Measurement

Catch, Weigh, Measure, Release. Never Handle a Fish Again... The Sonic-Laser Scale SP is a digital fishing scale that doubles as a multifunction ultrasonic fish measuring device.

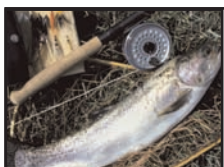

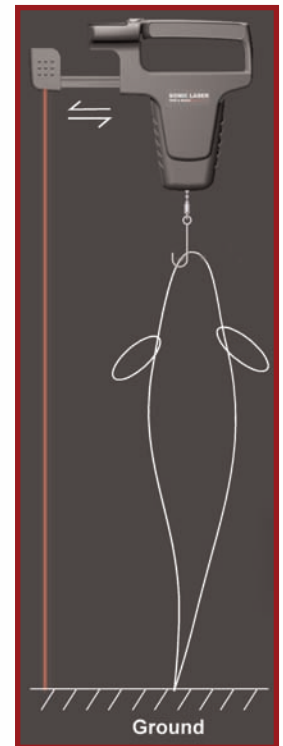

Traditional fish measuring devices require the user to lay a fish on a measuring board or stretch out a conventional measuring device. Well documented research indicates that laying a fish on its side creates considerable damage to internal organs and removes the valuable bacteria fighting "slime".

The Sonic-Laser Scale SP will allow the user to pick the fish out of the water, weigh the fish with a corrosion free digital scale, and measure the length without forcing human interaction with its delicate body.

To Use: Attach the stainless steel lip hook to the fish's mouth. Hold the fish vertical with the tail slightly touching a solid object (*ground, boat deck, water, etc*). Weight and length measurements are now at your finger tips.

FEATURES:

- Weighs up to 100 lbs (45 kg) in pounds/ounces and kilograms.
- Calculates fish length from 5 to 60 inches (13 to 154 cm) using laser guided ultrasound.
- Laser pointer shows you where the ultrasound is aimed.
- Corrosion free, solid state scale mechanism (*no moving parts*).
- Stainless Steel Lip Hook pivots 360 degrees.
- Hold Mode allows user to lock the display on the current reading or hold the most accurate reading while in a rocking boat.
- Tare Feature allows the user to offset the readings to 0 for weigh bags or containers.
- Polarized LCD (*can be seen clearly with Polarized Glasses*).
- SilverScreen Backlit LCD.
- Impact Resistant and Waterproof.
- 2 Year Warranty

<p>SPECIFICATIONS</p>	Model.....DS900SP	Backlighting.....Silver High Intensity	Weight Range.....1 oz to 100 lbs (.5 to 45 kg)
	Dimensions...2.5" x 6.2" (66 x 157 mm)	Battery..... 1 x 9 Volt (Not Included)	Length Calculation Range.....5 to 60" (13 to 154 cm)
	Weight.....13 oz (.4 kg)	Battery Life.....5 Hours Continuous	Waterproof Rating....IPX 7 (3 ft Submersion for 30 Min.)
	Display Type....Polarized Liquid Crystal	Accuracy.....+/- 3%	Operational Environment.....0 to 122° F (-18 to 50° C)
		Memory Storage.....0 Settings	Warranty.....2 Years
