

Portable Fish Finder With WeedID® • Depth, Fish, Bottom Contour and WeedID®

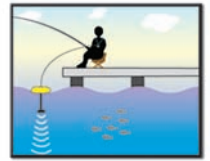

Instant Depth, Fish, Weed, And Bottom Structure Readings in The Palm Of Your Hand... With dozens of exclusive features including WeedID®, mountable and side-scanable sonar sensor, headphone type sensor plug, and 4 user selectable sensitivity settings, the HawkEye® Portable Fish Finder with WeedID® is guaranteed to produce even bigger fish stories...

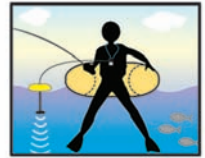

To Use: Simply turn the power on, toss the unique floating sonar sensor from the shoreline, bridge, or boat and instant depth, fish, weed, and bottom contour readings are now in the palm of your hand.

FEATURES:

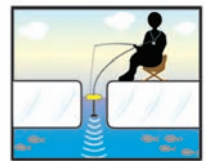

- Compact, palm-sized design fits in your tackle box, gear bag, or even in your pocket.
- Depth, fish, and bottom structure readings from 1.5 to 99.9 ft (.5 to 30.4 m).
- Instant depth readings to the nearest 1/10th foot or meter, updated 4 times per second.
- User selectable feet or meter depth readings.
- Algorithmic programming reduces false readings.
- No glare, polarized VirtuView LCD icon display.
- Fish identifier, depth scale, and 2 stage audible fish alarm.
- 4 user selectable sensitivity settings.
- Battery strength indicator with battery save mode and auto power off make the most out of battery life.
- WeedID® programming accurately depicts weed height.
- Automatic bottom composition detection.
- 2 button EasyTouch Programming with quick reference guide.
- Pivoting LCD protector doubles as an adjustable display stand.
- SoftGlow backlit display produces low intensity, low temperature lighting which prevents eye strain and condensation, while providing unparalleled nighttime viewing.
- Storage bag and adjustable neck strap.
- Trollable, mountable, and floatable sonar sensor with 35 ft (10.7 m) of harness with storage strap.
- Shoot-Thru sonar technology allows readings to be obtained through boat, kayak, canoe hulls, and ice.
- Ultra wide 45 degree sonar beam angle.
- Compact size and powered by 4 'AAA' batteries (not included).
- Sonar sensor side-scan adapter allows sonar direction finding under weeds, docks, ice, etc.
- Water resistant to USCG IPX4 Standard.
- Functional at temperatures down to 0 degrees Fahrenheit (-18° Celsius).
- 2 Year Warranty
